

The 2024 Pistol Australia ISSF National Championships is around the corner and from now until you arrive you will receive updates to help you navigate your Nationals experience.

'Making the Nationals a sustainable green event'

18

We are going to ask everyone attending to assist us to try and reduce waste & recycle to help make the Nationals a more sustainable greener event – *Thank you*

19

25m Rapid Fire – The squadding for the 2nd half of Rapid Fire on day 2 (Thursday) will be done on reverse ranking per the ISSF rules. The squadding will be finalised for the 2nd half at the conclusion of the 1st half. It will be posted on the Notice Board and on the PSQ Website at the end of Wednesday.

20

Equipment Control Opening Times –

Monday 3pm – 5pm

Tuesday 8am – 5pm

Wednesday 8am – Midday or as required

Thursday, Friday & Saturday 7am – Midday or as required

Sunday – as required

21

Range Opening – The range will be open for unofficial practice Monday from 9.30am to 4pm (some ranges may have to close for a period for preparation work; Official Practice will take place on Tuesday from 8.30am to approximately 3.30pm to provide sufficient time for our volunteers to reset the 25m Range & 50m Range for the following days competition.

22

Traffic – The road at the front of the complex – Old Cleveland Road has a tremendous flow of traffic in the mornings to the extent the traffic can sometimes form its own 3rd lane. If you are staying anywhere west of the range, you more than likely will have to travel past the range and do a U-turn so ensure you get in the left lane early or you may get caught up in the traffic and miss the gate into the complex.

23

Other Important info – There will be a Technical Meeting on Tuesday in the Finals Hall – time to be advised – keep an eye on the noticeboard. There won't be any presentations on Wednesday afternoon as the 25m Pistol Men Demo Match will finish quite late. Presentations for matches completed on Wednesday will be done on Thursday.

24

Support our Sponsors – Sincere thank you to Potter Firearms; Kruger paper targets & QRA.
